

# EASTERN CORRIDOR STUDY

The City of Winnipeg has launched the Eastern Corridor Study and will be hosting six drop-in workshops from May 15 - 18, 2017. The Eastern Corridor Study is the first step towards what could be significant upgrades to transportation in eastern Winnipeg. The study will determine a recommended rapid transit route alignment, transportation network improvements, preferred river crossing locations, and neighbourhood development opportunities for a new corridor connecting Downtown to Eastern Winnipeg.

## We want to hear from you!

We will be hosting **six drop-in workshops** throughout the study area. We encourage you to attend the workshop in your neighbourhood, but you can also choose the one that is most convenient for you to attend.

At these drop-in workshops, you will have an opportunity to learn about the study, provide input, and share your ideas. Activities will include mapping important places in the study area and identifying criteria that you think should be considered when planning and designing the corridor. This is the first series of workshops for the study, and there will be more opportunities to participate next month and throughout the year.

If you cannot make it to any of these events, please visit [winnipeg.ca/easterncorridor](http://winnipeg.ca/easterncorridor) to participate online.
